What is Watered Stock Value in a Motor Car?

Hudson Six, 54—Price \$2250, f. o. b. Detroit

"Watered" stock means over-valuation.

Stock represented to have a value of \$100 actually may be worth only \$50 par value—or list price—as applied to stocks frequently is misleading.

Yet there are many stocks that are honestly priced and that are founded on real value.

Similarly, some motor cars have "water" in their values.

They are priced higher than their quality warrants.

A car which profitably could be produced and sold at \$2250, may be priced, to mislead, at \$3,000.

But calling it a \$3,000 car does not make it one.

By pricing the \$2250 car at \$3,000, a margin of \$750 is given the dealer.

By means of this "watered" price he is able to offer what appears to be larger trading value to buyers for their used cars or considerable cash discount to cash buyers.

The average buyer, usually, is not competent to estimate motor car value.

He is accustomed to determine value by the price that is placed upon an article.

He, infrequently, is able to see that the car priced at \$3,000 really is but a \$2250 car, or even of a lower value.

He is misled, too, by the apparently larger figure allowed him on the trade of his old car, or discount for cash.

When you buy such a car you do not obtain a value equal to what you expect.

You may not discover your mistake until you wish to dispose of your car, then the shrinkage in what you consider its value is tremendous.

Some makers depend entirely upon this class of trade.

They have not sufficient prestige or volume of business to compete on a value basis.

So to attract trade, they offer what appears to be a liberal trading value for old cars or liberal cash discounts to buyers.

The buyer rarely knows, or cares to ascertain, the figure at which his old car is finally sold.

Some times, dealers state that they already have a buyer for the car at the price which they have allowed.

But this is not always true.

No established dealer, who is here to stay, can afford to handle cars of "watered" stock value.

No dealer can sell at a loss and still continue in business.

As service is essential to motor car satisfaction, you cannot afford to buy of a dealer who is not prosperous, and hence permanently in business.

So you see there must be a profit concealed in this kind of a transaction and you evidently pay the profit whether you see it or not.

Would you, knowingly, buy a car of a type that can only be sold strictly through deceit and misrepresentations?

The Hudson Six-54 is not for trades nor sold at discounts.

Some Hudson dealers never make a trade; they assist prospective buyers in selling their old cars, but the purchase of the Hudson Six is a cash deal throughout.

The dealer merely acts as the owner's agent in selling of the old car.

Other dealers accept an owner's used car at a stipulated price, and when sold the full price is credited on sale of new car.

This is why the Hudson Six-54 has no "water" in its advertised price.

This is why the list price and the value correspond.

It is \$2250 of car value, sold at \$2250; not \$2250 value sold through a fictitious trade or discount at \$3000.

Come in and see the King of the Road—the Hudson Six-54.

Fletcher Davis wants to "speak a piece" in Stockton—cannot ride. He seems to walk—why hesitate? Just "slide Davis slide."

Your advice, we know, is well meant. But as it is uphill to Fort Stockton, we would have had to climb instead. No, no! Nothing doing, boys. Where we made our mistake—seeing we should have had to walk was in not starting last year! But why cry over spilled milk? Forget it! But remember, boys, Hondo is going to entertain the Texas Dry Farming Congress next year. Start early! It is a wise one that profits at the expense of the other fellow's experience.—Hondo Anvil Herald.

Will Log Highway Across The State.

D. E. Colp, secretary of the highway division of the Chamber of Commerce, plans to go to El Paso Sept. 15, for the purpose of organizing counties along the route of the Southern National highway and to log the proposed trans-continental roadway. In going to El Paso he will cover about 100 miles and an equal distance on the return trip. The journey will consume two weeks or more.

Mr. Colp is president of the Texas division of Southern National Highway Association and intends pushing work in this state so that the Texas link—a matter of 820 miles—may be completed as early as possible. On his trip he will hold meetings in the various towns along the way, organize counties and arouse interest generally in the project.

From San Antonio he will go to Del Rio, via Hondo and Uvalde and then swing north to Ozona by way of Comstock and Juno. From there he will make El Paso via Sheffield, Fort Stockton, Alpine, Marfa and Sierra Blanca.

In returning he intends going through Sanderson and Marfa to inspect and log the southern route west of Del Rio. Upon completion of his trip he will make a report to directors of the organization and the route selected will be governed to a large extent by the recommendations in that report.—San Antonio Light.

Anyway, the unwritten law seems to have a lot written about it.

MR. LEWIS A. RIFFLE tells his experience with coughs and colds that lead to nervousness and debility.

Colds are often aggravated during the summer because inactive bowels and a stomach out of order are prime causes in keeping a cold from getting well. Pe-ru-na has very beneficial laxative qualities that neutralize such conditions. Its tonic ingredients tone up the system, and thus invigorate the stomach's functions to normal activity.

Mr. Riffle's experience is especially interesting at this time of the year because it shows the close relationship there is between a nervous breakdown and a neglected cold.

Pe-ru-na should be kept in the home at all times, that a cold upon its first appearance may be treated promptly and successfully. This often saves money and time, and what is more important, a great deal of vitality.

Mr. Riffle, of 114 Gutenberg Ave., Portland, Ore., writes: "I have found Pe-ru-na a most remarkable medicine for building up the system and for curing coughs and colds."

"I took it for four weeks a few months ago when I was all run down, nervous and debilitated, and it quickly restored my health."

"I always keep it on hand, as a few doses will cure a cold if taken in time." People who object to liquid medicines can now obtain Pe-ru-na Tablets.

Doughnuts

That will remain moist

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out as quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K.C. will be found to have distinct advantages over any other Baking Powder for doughnuts. K.C. is a double acting baking powder with which a large batch of doughnuts may be mixed and fried a few at a time. The last will be as light and nice as the first.

K C Potato Doughnuts

By Mrs. Nevada Briggs, of Baking School fame.

3 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful K.C. Baking Powder; 1/2 teaspoonful salt; 1/2 teaspoonful molasses; 1 cup cold mashed potato; 1 cup milk, or more if needed.

Sift three times, the flour, salt, and baking powder. Beat eggs with rotary beater, then still using rotary beater, gradually add sugar, then work in the mashed potato with a spoon and alternately add milk and flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat.

Fat for frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.

That plaintiff Louis Rothe's title to the above described lands is by virtue of a deed from Alvin P. Granger to F. Rothe was filed for registration in said Medina County on February 23, 1897; that said deed from A. C. Rothe to Louis Rothe was filed for registration in said Medina County on July 15, 1905. That the title of plaintiff A. C. Rothe Jr. to a part of said survey No. 1005, is by virtue of a deed from Henry Rothe, A. C. Rothe, Louis Rothe and F. Rothe, dated 1912, filed June 10, 1912, for registration in said Medina County, and recorded in Book A, No. 47, on pages 430 and 431, of the Deed Records of said County.
Plaintiffs further represent and allege that they have a good and perfect title to said Land and premises under and by virtue of the Statute of Limitation of (3) three years for the reason that said plaintiffs, and those under whom they claim by duly registered deeds, have had peaceable and adverse possession thereof under title or color of title for more than three years prior to the institution of this suit.
Plaintiffs further represent and allege that they have a good and perfect title to said land and premises under and by virtue of the Statute of Limitation of five (5) years for the reason that said plaintiffs and those under whom they claim, as aforesaid, have had peaceable and adverse possession of said land and premises, cultivating, using and enjoying the same and paying all taxes due thereon as the same

accrue, and claiming the title thereto under and by virtue of the above mentioned deeds of conveyance, duly filed and registered as aforesaid, for more than five years prior to the time of the institution of this suit.
Plaintiffs further represent and allege that they have a good and perfect title to the lands and premises under and by virtue of the Statute of Limitation of ten (10) years for the reason that plaintiffs, and those under whom they claim, as aforesaid, have had peaceable and adverse possession of said Land and premises, cultivating, grazing, using and enjoying the same for more than ten years prior to the time of the institution of this suit.
Plaintiffs further represent that the title or claim of the said J. N. Berryman, and the unknown heirs of the said J. N. That the title or claim of defendant W. H. Parsons, and the unknown heirs of W. H. Parsons, is unknown; that the title of defendant, Myra W. Parsons, and the unknown heirs of Myra W. Parsons, if any, is by virtue of a deed from said defendant, W. H. Parsons, to said Myra W. Parsons, dated May 6, 1878, filed for record in Medina County, Texas, on June 27, 1879, and recorded in the deed records of said county in Book A, No. 12, on page 530; that the title or claim of defendant, Jacob Massina, and the unknown heirs of Jacob Massina, is unknown to plaintiffs; that the title or claim of defendant, A. P. Granger, and the unknown heirs of A. P. Granger, is by virtue of a deed from defendant, Jacob Massina, to the said A. P. Granger, dated March 21, 1878, filed for record in the deed records of Medina County, Texas, on June 11, 1878, and recorded in the deed records of said county in Book A, No. 11, on page 538.
Plaintiffs bring this suit for the purpose of determining the estate, interest or claim, if any, of each and all of the above named defendants, or any person or persons who may claim under them, in and to said lands and premises and that the court may adjudge and decree unto plaintiffs the said land and premises, free from any claim, title or interest of the said defendants, or any of them, and to forever settle by decree of court the title to said lands.
Wherefore, plaintiffs pray that said defendants, the names of part of whom are unknown to plaintiffs, and the residences of all are unknown to plaintiffs, be cited by publication as prescribed by the Statutes of this State, and that

upon final hearing in the case that plaintiffs have judgment of the Court, declaring and adjudicating the title to the above described lands to be in plaintiffs free from any and all claims in favor of said defendants, or any of them, and for such other and further relief, general or special, legal or equitable, to which plaintiffs may be justly entitled to.
And you will summon the said defendants to so answer the said petition by making publication of this citation in some newspaper published in Medina County, Texas, if there be any newspaper published therein, but if not, then in any newspaper published in the nearest county where a newspaper is published, once in each week for eight successive weeks previous to the return day hereof.
Herein fail not, but have you before said Court at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

AGRICULTURAL LAND FOR SALE!

Improved and Unimproved

In placing my holdings on the market, consisting of lands around Charlotte and Jourdan, both improved and unimproved, I do so with the knowledge that these lands are most favorably situated and offer every convenience to those seeking homes. Within easy reach of every point are modern gins, well equipped schools, commodious churches, good roads lead everywhere, to nearby railroad stations and the best markets in Texas.

This property has not been offered earlier because these very necessary advantages were not to be had, but now they are a reality---nothing is left to speculation or future contingencies. Settlers now have all the advantages that can be found anywhere in a fully developed community without paying the prices that are asked in the older sections. You can have the benefit, for I am offering you the most desirable opportunity in Texas.

These lands are as good as can be had in South Texas; there are no better anywhere. Plenty of water can be obtained on any tract and shallow wells can be located at small cost furnishing an abundance of good water. The soil is fertile, there are no crop failures on these farms and no irrigation is necessary. No section of the state offers a more healthy or delightful climate, winter or summer.

TESTED SCHOOL SHOES

Look Better—Fit Better—Wear Better

"Tess and Ted" school shoes have become famous for their style, finish and long wearing qualities. Four pairs will outwear five pairs of ordinary shoes made for children's wear.

Many shoemakers yield to the temptation to use substitutes for leather in children's shoes, because of the high price of leather, but we have built up our business by selling honest leather shoes.

Cut up a pair of "Tess and Ted" or any other "Star Brand" shoes and you will find that they have sole-leather heels, soles and counters. No substitutes for leather are ever used. See No. 3130—a new model for boys.

Pure Shoe Legislation is pending in Congress and many states to protect you against fraud. We heartily endorse it. The rights of 100 million consumers are greater than those of a few hundred manufacturers.

"Tess and Ted" school shoes are made in a hundred different styles for boys and girls of all ages. They are designed to properly fit the foot of growing children.

"Tess and Ted" school shoes and over 700 other styles of "Star Brand" shoes are for sale by 20,000 good merchants. Don't just go into ANY store and ask for them, but come direct to our store. We are specialists on these famous shoes.

The name on the sole and the "Star" on the heel insure honest values.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

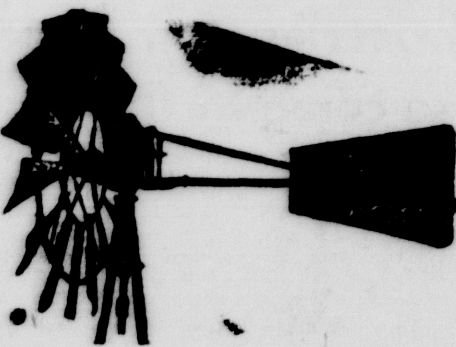

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

HERBINE For the Bowels

A Cure for Chronic Constipation, Torpid Liver and Irregular Bowel Movements.

Constipation is the most common disorder of the bowels. It affects both sexes and all ages but is more prevalent among women because their duties in the household require less physical exercise than the occupations of men; therefore women suffer most from its baneful effect.

A constipated person is an easy victim when exposed to any serious disease—Pneumonia, Typhoid Fever, Malaria, Rheumatism, Small Pox, Yellow Fever and Bright's Disease gather their annual harvest of death among those who are habitually constipated. Even though they escape these diseases, such persons are always ailing more or less. They have headaches, bad digestion, dizziness, vertigo (blind staggers), sallow complexion, flatulence, loss of strength; and no energy at all. Herbine has a most admirable effect in the bowels; it is cooling, purifying and regulating. It puts a prompt check on biliousness, wind in the bowels, nervousness, heartburn, bad breath, low spirits, drowsiness in the daytime and nervous wakefulness at night.

Price 50c per Bottle.

Big vs. Heavy.

Motorists rapidly are learning that the big car is the car to buy, and the car to drive.

But big does not mean heavy, cumbersome, loggy. It does mean ample in room, commodious, comfortable. It means a car in which a long wheel-base insures lots of passenger room and easy riding. It means a powerful motor. It means big, economical wheels and tires.

The thing that surprises buyers who examine the Hudson Six 54 is that with all this roominess the car is lighter in weight than cars of shorter wheel-base and in which passengers are cramped for room. And that its six-cylinder motor, with all the many advantages of a six, costs them no more—often less—to operate than does a big four.

Only now are manufacturers able to offer to the public a car of the size and power of the Hudson Six 54 at such a moderate price. And never before has it been possible to operate such a car on a scale of upkeep no higher than a cramped, heavy, and often unsatisfactory four.

Advanced ideas in motor design; new methods of weight distribution; improvements in frame and spring construction; extended use of aluminum; these are the things that make possible a big car at the selling and operating cost of smaller, heavier, less commodious cars.

See this remarkable car. Everyone is talking about it. No matter what car you seek this will interest you. It accommodates four, five, six or seven passengers. Yet it will cost you less to buy and run than many a car of half its satisfaction.

Yours very truly,
HONDO AUTO SALES CO.

A very interesting lesson was heard by Miss Bertha Newton, our new President, in which all members and visitors took part.

After the lesson delicious refreshments of sherbet, cake and lemonade were served by the hostess, assisted by Miss Hallie Walker and Miss Pearl Newton.

The lesson for the next meeting will be the last eight chapters of Mark.
